CAREER OBJECTIVE

As a dedicated and motivated final year undergraduate student with a foundation in front-end development and a growing expertise in full-stack technologies, I am eager to contribute to a dynamic development team. I am eager about continuous learning and excited to apply my technical knowledge to real-world projects while focusing on my growth in the software development field.

EDUCATION

Rajalakshmi Engineering College   **Chennai, Tamil Nadu**
Bachelor of Engineering in Computer Science and Design Engineering   *Expected Graduation: Jun 2025*
Relevant Coursework: Design Thinking;
CGPA: 7.33/10.00 (Till 6th Semester)

Sri Chaitanya   **Tamil Nadu**
Higher Secondary In Computer Science   *Jun 2019 - May 2021*
Percentage: 77.60

SKILLS AND TECHNIQUES

Programming Languages - Problem Solving

- Java (Intermediate)

Web Languages - Front End Development

- HTML (Hyper Text Markup Language)
- CSS (Cascading Style Sheets)
- JS (Java Script)

Design Tools and Software's - UI/UX

- Figma
- Adobe XD

Version Control - Collaborative Team Work

- Git
- GitHub

PROJECTS

Web Application for Student AI Tools   **July 2024 - Oct 2024**

- Developed a web application that integrates various AI-powered educational tools for students within a single platform.
- Provided a comprehensive suite of academic tools, designed to enhance student efficiency and streamline their educational experience.
- Tools and Techniques: HTML, CSS, JS, React

UI/UX Case Study On Spotify And Redesign Of The User Interface   **Apr 2023 - Jun 2023**

- Captured and analyzed the present user experience on Spotify, by conducting research and surveys through Google Forms.
- Redesigned the Spotify user interface based on the research conducted and ensured the redesign meets user needs.
- Tools and Techniques: Figma - UI/UX design, Prototype; Critical Thinking; Research and Survey

Email Segregator Bot   **Jun 2023 - May 2023**

- Developed and implemented an email segregation process by sorting the emails based on the user defined criteria.
- Deployed UiPath robots to categorize emails into specific folders, enhancing productivity and reducing manual email handling time.
- Tools and Techniques: Automation, RPA (Robotic Process Automation), UiPath

RELEVANT COURSEWORK

- **Software Development Life Cycle (SDLC):** Experience with various stages of SDLC like analysis, design, development, testing, and deployment.
- **Project Management:** Enhanced teamwork and collaboration by working in groups to complete projects efficiently.
- **Human-Computer Interaction:** Improved user-centric thinking by designing user interfaces and considering user feedback.

LEADERSHIP AND ACHIEVEMENTS

- **Event Coordinator** - Volunteered and organized inter college department symposium, Rajalakshmi Engineering College   *April 2024*
- **Overall Championship** - Participated and secured the overall award in annual sports meet, AM Jain School   *Jan 2019*

CERTIFICATIONS

- Introduction to Front-End Development, Meta
- HTML and CSS in depth, Programming with JavaScript, Coursera
- Privacy and Security in Online Social Media, IIIT Hyderabad
- RPA Design and Development v4.0, UiPath
